

KLove Radio is a great asset to our community playing positive music with positive values and as a resident of this community I petition that KLove continues to have rights to the airwaves in our area. The loss of K-Love would negatively affect this community as it the positive influence of its music and the encouragement it gives for community service is most important to me. Replacing it will be a great loss to our area. In a world that struggles to find ways to care about each other in community, K-Love provides the encouragement needed for our growing community. As a monthly financial supporter, Please do whatever you can to make sure that KLOVE continues to play in the Indianapolis market.
